### **SET RINGTONES**

You can set ringtones for incoming calls from all contacts and from individual contacts.

#### **To set a ringtone for incoming calls:**

- Select Settings > Basic > Ring Type and select a ringtone.

---

Noise management, it's magic. Have you ever been on a call where you can hear everything that is happening in another participant's open-plan office? What about when a colleague dials in from a coffee shop or train station? The fact is the workplace is changing; people aren't always sat in a quiet cubicle, so your phones need to be able to manage and eliminate this extraneous noise to reduce its impact on productivity. Polycom® Acoustic Fence™, uses the two microphones built into the VVX phone to create a virtual fence, which blocks any sound outside that fence, ensuring distraction-free calls and conferencing. Polycom® NoiseBlock™ technology keeps annoying sounds such as keyboard clicking and paper rustling from interrupting your meetings. It identifies the speaker in group collaboration and automatically mutes everyone else. Simple.

The information in this guide applies to both the VVX 400 Series. Configurations vary and the screen displays used in this guide may not reflect those on your phone. Call 855-277-4732 or email [enterprisesupport@cspire.com](mailto:enterprisesupport@cspire.com) for more information. For detailed training videos on this phone, please go to [cspire.com/enterprisesupport](http://cspire.com/enterprisesupport).
